EGD INSTRUCTIONS
READ AND FOLLOW CAREFULLY

****If you are taking Coumadin, Aspirin, or any anti-inflammatory medication such as Advil, Aleve, Ibuprofen, Mobic, Celebrex, please stop 4-5 days prior to procedure.****

*****If you are taking Aggrenox, Persantine, Plavix, Pletal, Ticlid, or any other blood thinning agent, please stop 10 days prior to you procedure.*****

- Do not eat or drink after midnight the night before your scheduled procedure

- If you are on Heart, Blood Pressure or Asthma medications and routinely take them in the morning, you may take them the morning of the procedure with a small amount of water

- If you are diabetic do not take your diabetes medications until after the procedure when you have resumed food and drink intake

**YOU MUST HAVE SOMEONE TO DRIVE YOU HOME AFTER THE EGD –
PLEASE HAVE A DRIVER PRESENT.**

You will be given medication to help relax you and we will **NOT** allow you to drive home or take a cab.

Failure to follow these instructions will cause us to cancel the procedure!
